Enrichment Programmes 2024/2025

ALL ABOUT OPTIMUSMINDS

ABOUT US

Optimus is a latin word derived from the word optimism. Simply put, believing that the best will happen no matter the depth of the situation. So with OptimusMinds, we want our young ones to develop a mindset that always looks at the positives and brighter side of any situation, even during challenges and failures. Every step of the way is an opportunity for growth. It is a lifelong learning adventure to always be agile in an ever-changing VUCA world.

HOW WITH OPTIMUSMINDS

OptimusMinds looks at the latest economic trends and innovations when designing and customising programmes. Our team will plan and deliver quality services to ensure the smooth running of your programmes. To provide opportunities for an early head start in entrepreneurship, we will market and showcase pupils' creative works through various platforms.

WHY WITH OPTIMUSMINDS

Education plays a pivotal role in levelling up and developing people holistically in every generation. In OptimusMinds, we are determined to provide opportunities to impact, inspire and improve lives for future generations with a truly wholesome experience.

WHAT WITH OPTIMUSMINDS

- 1 Our dedicated team will hear you and customise programmes to suit your needs with the learner at the heart of it all.
- 2 We have programmes in Career Guidance, ART appreciation, Team building, Lifeskills, Technology, AI and many others. Programmes can be customised to include online-learning through synchronous or asynchronous activities.
- 3 Our Design Team and ICT programmers will provide solutions and customise digital platforms to suit your needs.

FOREWORD

Hi! I am Jinder, founder of OptimusMinds Education. Welcome to our brochure of educational programmes. We are excited to showcase our diverse range of enrichment programmes and options that cater to individuals of all ages.

Our programmes are designed to foster creativity, inspire critical thinking, and develop skills and knowledge that are relevant to today's rapidly changing world. From online courses to face to face lessons, we offer a variety of learning formats to accommodate to your needs and preferences.

We have partnered with industrial experts to share with the students more about what happens on the ground and their experiences in the related fields. Students can also go on learning journeys to learn from authentic environments and situations.

Since the start of the company in 2019, we are fortunate to work with many schools. I would like to

take this opportunity to thank the schools who have trusted us and gave us the chance to work with you. We have built a great relationship together and will continue to do so.

I also would like to thank our industrial partners for collaborating with us to bring authentic experiences to our students. We all hope to inspire them in one way or another to understand the options out there for them.

The last group of people I would like to thank, is my staff and trainers, without which, we cannot do what we do. I appreciate the enthusiasm, the creativity and passion they have for the job to deliver for the students.

SIGNATURE PROGRAMMES

CULINARY AND FOOD TECHNOLOGY

Aspire to be a chef and to run a restaurant someday? Our experienced chefs will share restaurant recipes and demonstrate how these dishes can not only taste delectable but also the importance of art in culinary to make the food look beautiful through plating.

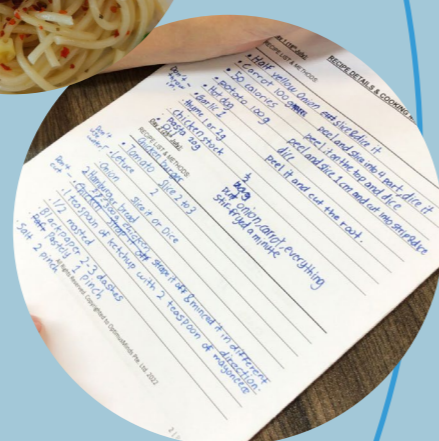

Through hands-on experiences and expert guidance, students will cultivate a love for cooking, nutrition and culinary arts.

QUICK SNAPSHOTS!

Students learn to follow recipes, cooking tips, to prepare meals (entrees, main course and desserts) and present their dishes during their showcase.

Students visit a restaurant to learn more about the operations and get a hands-on experience working on the barista machine, making mocktails and setting up tables for dining. Watch a cooking demonstration too.

Students get ready to showcase what they have learnt during an Open House Event.

SIGNATURE PROGRAMMES

HOSPITALITY & SERVICE

(Programme is available for Special Needs Students)

Embark on an exciting journey into the world of hospitality and services! Our comprehensive programmes invite students to explore the dynamic realm of customer services, event management, hotel and restaurant operations.

QUICK SNAPSHOTS!

Students learn table setting, napkin folding and serving.

Students visit a restaurant to learn more about the operations and get a hands-on experience making a mocktail or coffee.

Students get ready to showcase what they have learnt and serve their teachers creative mocktails or coffee. This module complements well with culinary module.

SIGNATURE PROGRAMMES

HAIRSTYLING

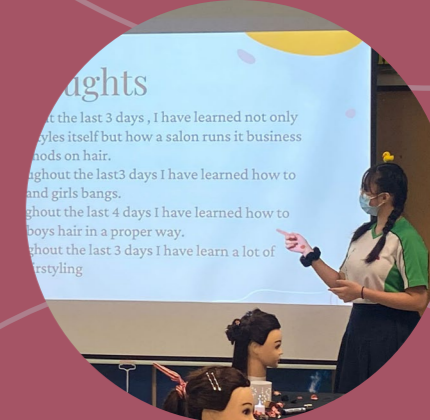

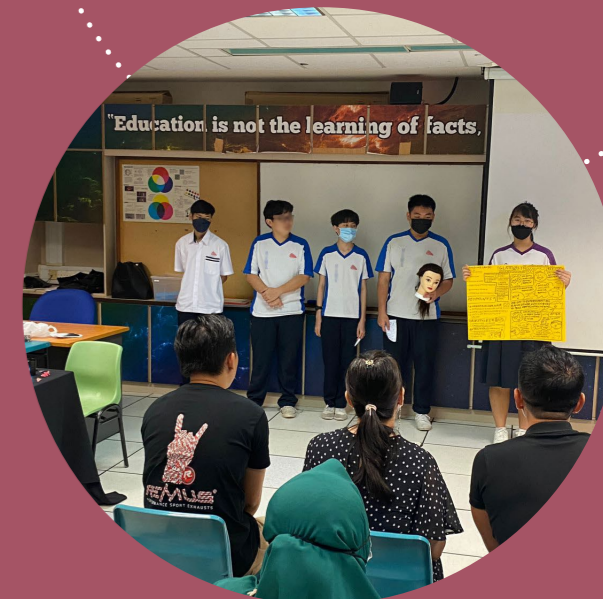

Love to style hair? Take part in this hands-on course where students will get to give head massages, style hair, use various tools to curl and straighten the hair.

QUICK SNAPSHOTS!

Students learn to style hair using hairstyling tools, carry out head massages and how to wash hair.

Students visit a hair salon to learn more about the operations and get a hands-on experience.

Students get ready to showcase what they have learnt through presentation and demonstrations.

SIGNATURE PROGRAMMES

IMAGE CONSULTANT & BEAUTY

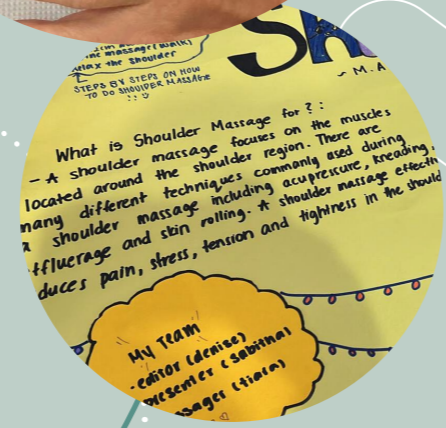

Want to learn more about dressing for the occasion? In this course, students will learn personal hygiene, creating a fashion image portfolio and beauty tips.

QUICK SNAPSHOTS!

Students prepare to start-up their own Beauty Salon.

Students visit a beauty salon to learn more about the operations and get a hands-on experience.

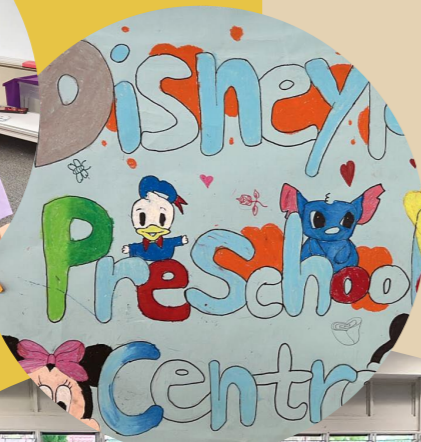

Students get ready to showcase what they have learnt through presentation and demonstrations to show appreciation to their teachers.

DESIGNER PROGRAMMES

EARLY CHILDHOOD EDUCATION

Ready to be an inspiring educator? In this programme, students will go through the process of being an early childhood educator and will design their own classroom and create engaging lessons for the students.

HEALTHCARE

In the hands-on programme, students will be exposed to first aid, understand how to use medical equipment and to care for patients with different medical needs.

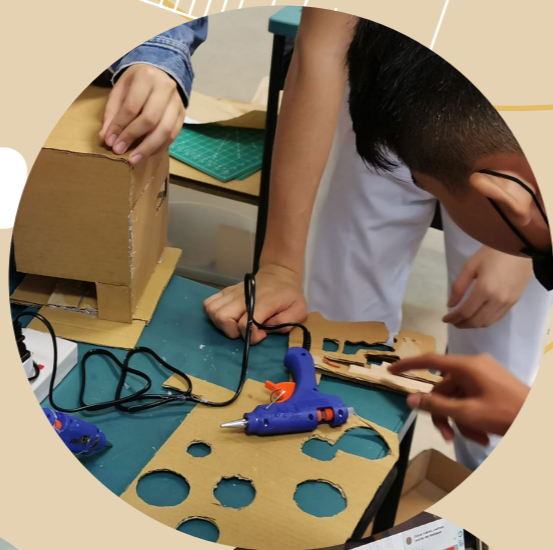

DESIGNER PROGRAMMES

Do you inspire to be a designer? Below, we explore 3 design programmes that will stretch your students creativity.

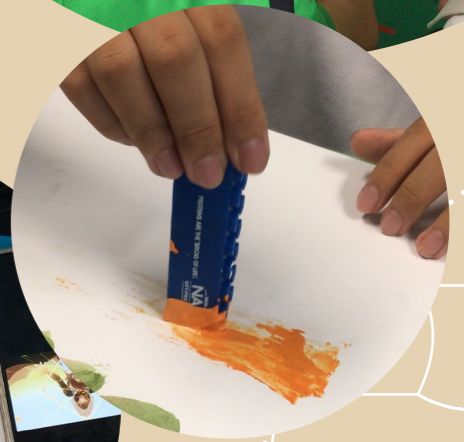

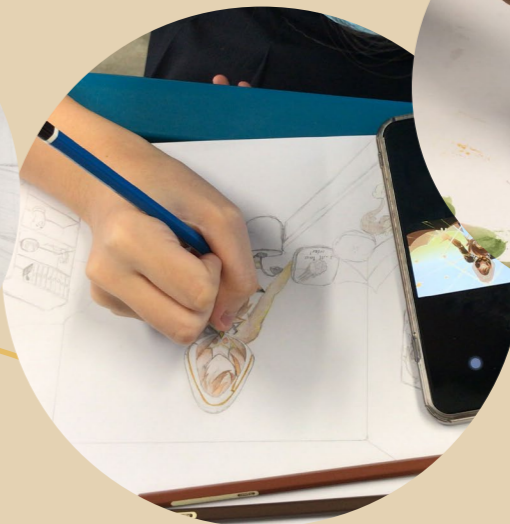

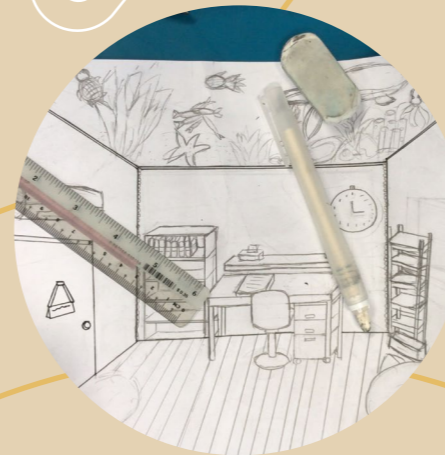

DESIGN: 3D PRODUCT DESIGN

Design, review and create products using recycling materials. Maybe create a toy for children on Children's Day or a special gift for your teachers.

DESIGN: ART DESIGN & MURALS

Explore new skills when painting and drawing. Design your own room or even part of your school.

DESIGN: FASHION DESIGN

Ready to translate your creativity to create your own line of fashionable apparels? Here, students will use 2D and 3D design skills to sketch, colour, sew to produce bags, outfits, shoes or jewellery. This will all lead up to a fashion show as their final showcase.

DESIGNER PROGRAMMES

SOCIAL MEDIA & VIRTUAL REALITY

Inspire to be a Youtuber or work in Media-related fields? Expose the students to the process of developing their own content and videos. Understand more about subscriptions and viewership management as well as the relevant laws, copyright, privacy issues and career opportunities.

SPORTS SCIENCE & WELLNESS

As more and more people are leading an active and healthy lifestyle, students will learn to understand the industry better and what it takes to run their own Sports Facility. Students will organise indoor, outdoor and adventure games and exercises. Plan and marketing their own Gym.

DESIGNER PROGRAMMES

GAME DESIGN & ROBOTICS

In this hands-on session, you will apply concepts and techniques of computer languages for creating games as well as creating creative movement and lighting display of Sphero ball. Students will use presentation skills and online tools to market games. Students can create Sphero Dance for school events to create that special difference. Furthermore, it is crucial to understand the importance of Cyber Wellness and game discipline. Our trainers will share the various career opportunities in the industry.

TESTIMONIALS

Elective Module Programme for Fuchun Secondary Students

One of OptimusMinds's greatest strengths is that they always deliver on time. They have some talented trainers who are able to engage our students creatively. Our students enjoy their elective modules and find them meaningful. Their coordinators are flexible and able to adapt at a moment's notice. They are easy to work with.

**Mr Sivakumar Murugaya,
HOD Discipline
(Fuchun Secondary School)**

AEP for Bukit Merah Secondary School

Dear Jinder & Ramesh, Thank you for 'partnering' our school in developing students' aesthetic talents & building their self-confidence for so many years. The good service provided by you two are something we treasured.

**Mrs Lim Guek Lee,
AEP Committee and HOD MT
(Bukit Merah Secondary School)**

PAL Performing Arts for Bukit Timah Primary School Students

It was a joy working with OptimusMinds as they were meticulous throughout the contracted period. Efforts were put in to survey the school premises and suggestions were given to ensure students were allocated the best locations that would aid the delivery of the lessons by the instructors. The company was very flexible too and worked within the constraints of the school, logistic wise, and the quality of the lessons were not compromised despite the many challenges faced. Feedback by the school was sought and adjustments were made if the school requested for changes to be made. These are just some of the positive experiences that the school had. Working with them was definitely a joy. Keep up the good work.

**Mr Donald Tan,
PAL Committee
(Bukit Timah Primary School)**

Taster Elective Modules for Express Students Punggol Secondary School

Thx OM. Will strongly recommend your team to next year sec 3 team and to our elective Head Fulia for future cooperation. Your team's professionalism impressed me.

**Mr Ong KaiWei,
Secondary 3 Year Head
(Punggol Secondary School)**
